SUMMARY

I am a dedicated Full-Stack Web Developer and Computer Engineering student with a passion for continuous learning and innovation. My commitment to staying current with industry standards drives me to create effective and impactful solutions. With a strong foundation in both front-end and back-end technologies, I am focused on delivering high-quality results and contributing to meaningful projects.

EXPERIENCE

Intern

Static Int. Educare

07/2022 - 08/2022

An educational company focusing on technology-driven solutions.

- Gained expertise in Flutter and Android Studio, developing scalable, user-friendly mobile applications with optimized performance.
- Designed and implemented responsive UI/UX for cross-platform and native applications.
- Explored blockchain basics and smart contract development, understanding its role in decentralized applications.

EDUCATION

Bachelor of Computer Engineering

Fr. Conceicao Rodrigues College of Engineering

08/2023 - 01/1970 Mumbai, India

Diploma in Information Technology

Thakur Polytechnic

01/2021 - 06/2023 Mumbai, India

KEY ACHIEVEMENTS

Academic and Competition Achievements

Secured 2nd position academically in the first year and 3rd position in the second year of the diploma, and won 2nd place in a Technical Presentation Competition.

SKILLS

Android	Android Studio	API	
Blockchain	bootstrap	canva	
CSS	Data Visualization	Django	
Firebase	Flutter	Front-end	
Git	Github	HTML	Java
Javascript	nextjs	Python	rest
Rest API	smart contract	UI/UX	
Visual Studio	visual studio code		

PROJECTS

Car-Pool App

01/2022 - 03/2022

A mobile application aimed at facilitating carpooling for eco-friendly travel and cost efficiency.

- Developed a mobile application to facilitate carpooling by connecting users offering rides with those seeking transportation.
- Integrated Firebase Authentication for secure user login.
- Implemented GPay UPI payment system for easy ride payments.
- Focused on a user-friendly interface to enhance the carpooling experience.
- Encouraged eco-friendly commuting while reducing individual travel costs.

PROJECTS

Expense Manager

📅 04/2022 - 06/2022

An Android application to help users track income and expenses.

- Developed features to add, categorize, and track income and expenses effortlessly.
- Visualized financial data with real-time updating pie charts and graphical insights.
- Secured user authentication and data storage via Firebase and Firestore integration.
- Implemented a user-friendly, modern UI design for intuitive navigation and experience.
- Empowered users to analyze spending patterns and make informed financial decisions.

Oscar's 2024

📅 07/2022 - 09/2022

A web application showcasing the nominees and winners of the 2024 Oscars.

- Designed and developed a user-friendly platform to showcase the 2024 Oscars nominees and winners.
- Enabled user engagement by allowing comments on nominees and winners.
- Integrated Firebase for secure user authentication and real-time data storage.
- Featured interactive event highlights to keep users updated on the latest news.
- Focused on providing a clean, responsive, and dynamic web experience for users.
